Protect your UGA accounts with ArchPass

UGA's two-step login solution, powered by DUO

Enter your MyID and password

Verify your ID with a device enrolled in DUO

Access granted!

Available to all UGA students, faculty and staff

Enroll a device now at archpass.uga.edu
An extra level of security

ArchPass, powered by DUO, protects your credentials by verifying your identity when you log in to certain UGA applications.

Enroll a Device

You can enroll a smartphone, cell phone, tablet or landline phone through the DUO Self-Service portal at archpass.uga.edu. This device will be used to verify your ID during the log-in process for UGA applications.

Two-step login

Applications that are protected by ArchPass have two steps to the log-in process:
1) Enter your MyID and password
2) Use DUO to verify your ID with a push notification, SMS text message, passcode or phone call to your enrolled device.

The two-step login makes it harder for cyber criminals to steal your identity. This extra step helps protect your personal information and the University’s data.
